

Curious George - Plumbing Episode Guide

Vocabulary, Expressions, and Complete English-Spanish Script

Focus: everyday American English, plumbing vocabulary, phrasal verbs, and kid-friendly meanings

How to Use This Guide

1. Study the vocabulary first so the story is easier to understand.
2. Read the English line and notice the red words. These are the key expressions to learn.
3. Read the Spanish translation to understand the meaning naturally.
4. Repeat short lines from the script and use them in your own examples.

Part 1: Vocabulary and Expressions Guide

Part 2: Complete English-Spanish Script

The key vocabulary and expressions are highlighted in red in the English transcript.

Scene 1: The Bathtub Mess

Speaker	English Script	Spanish Translation
English Narrator	Huh. George had grown tired of the same old bathtub frog and boat races. Wow! He needed new tub toys . Hiya!	Ajá. Jorge se había cansado de las mismas carreras de siempre del sapo y el barco en la bañera. ¡Guau! Necesitaba juguetes nuevos para la tina. ¡Hola!
The Man	Uh? Done with your bath, George? Uh-oh-ah-ah-ah. Well, then please get back in the tub. You're puddling .	¿Uh? ¿Terminaste tu baño, Jorge? Uh-oh-ah-ah-ah. Bueno, entonces por favor regresa a la tina. Estás haciendo un charco.
George	Uh-huh.	Ajá.

Scene 2: The Box of Tools

Speaker	English Script	Spanish Translation
English Narrator	This was George's box of stray stuff . None of which had ever been played with in the tub. Oh! Haha, ooh-ooh-ah-ah. Ah. Ooh. Ha. None of this stuff made for exhilarating monkey tub action . This disappointing bath was over. Haha.	Esta era la caja de cosas sueltas de Jorge. Ninguna de las cuales se había usado nunca para jugar en la tina. ¡Oh! Jaja, uuh-uuh-ah-ah. Ah. Ooh. Ha. Nada de esto sirvió para una emocionante acción de tina para un mono. Este baño decepcionante había terminado. Jaja.

Scene 3: The Clog Happens

Speaker	English Script	Spanish Translation
English Narrator	Some of the stuff was moving on its own . Ooh! Ooh-ooh-ah-ah! These were good tub toys .	Algunas de las cosas se movían por sí solas. ¡Ooh! ¡Ooh-ooh-ah-ah! Estos sí eran buenos juguetes para la tina.
George	Oh-oh. Ooh-ooh-ah-ah! Ah! Ah! Uh-oh.	¡Oh-oh. Ooh-ooh-ah-ah! ¡Ah! ¡Ah! Uh-oh.
English Narrator	George wasn't sure how to get all that fun stuff out of the drain . It went down with the water, so logically, if he added more water... it should all float back up .	Jorge no estaba seguro de cómo sacar todas esas cosas divertidas del desagüe. Se fueron con el agua, así que lógicamente, si añadía más agua... todo debería flotar de regreso hacia arriba.
George	Ah!	¡Ah!

Scene 4: The Water Flood

Speaker	English Script	Spanish Translation
The Man	Huh? Ah! Oh, boy . Just a second, George. Water's backing up into the sink, and I don't know why. And the bathroom, too? Oh, no. I-I'd better call the plumber .	¿Eh? ¡Ah! Vaya, vaya. Sólo un segundo, Jorge. El agua se está saliendo por el fregadero y no sé por qué. ¿Y en el baño también? Oh, no. Yo... será mejor que llame al plomero.

Scene 5: Mr. Ogger Arrives

Speaker	English Script	Spanish Translation
English Narrator	George liked it when Mr. Ogger the plumber came over. He had the best toolbox George had ever seen. Ooh, haha.	A Jorge le gustaba cuando el señor Ogger, el plomero, venía de visita. Tenía la mejor caja de herramientas que Jorge había visto jamás. Ooh, jaja.
The Man	Good to see you again, Ogger.	Qué gusto verte de nuevo, Ogger.
Mr. Ogger	Is it? No one calls a plumber until there's trouble. Ah. Phew. Just once it would be nice if someone called to say, " Come over and have a cookie."	¿En serio? Nadie llama al plomero hasta que hay problemas. Ah. Uf. Tan solo una vez sería lindo que alguien llamara para decir: "Ven a comerte una galleta".
The Man	Would you like a cookie?	¿Te gustaría una galleta?
Mr. Ogger	I would, but I have work to do. Where's your water main shut-off valve ?	Me gustaría, pero tengo trabajo que hacer. ¿Dónde está la llave de paso principal del agua?
The Man	Uh, downstairs . Take him, Hundley. Woof, woof!	Eh, abajo. Llévalo, Hundley. ¡Guau, guau!

Scene 6: In the Basement

Speaker	English Script	Spanish Translation
Mr. Ogger	Hey, George, you can watch if you're curious. Ooh, haha. These pipes lead to all the rooms in the building. Ooh. Some bring the water in , and some drain it up. This main valve controls the water for the whole place. Ooh. Argh! There.	Oye, Jorge, puedes mirar si tienes curiosidad. Ooh, jaja. Estas tuberías van a todas las habitaciones del edificio. Ooh. Algunas traen el agua hacia adentro, y otras la drenan hacia afuera. Esta válvula principal controla el agua de todo el lugar. Ooh. ¡Argh! Listo.
Mr. Ogger	Now everyone's water is off until I turn it back on . It's like, uh, having a superpower. Ooh. Ah, ah.	Ahora el agua de todos está cortada hasta que yo la vuelva a abrir. Es como, eh, tener un superpoder. Ooh. Ah, ah.

Scene 7: Finding the Clog

Speaker	English Script	Spanish Translation
George	Ooh-ooh-ah-ah!	¡Ooh-ooh-ah-ah!
Mr. Ogger	This breaks up clogs . Nothing there. Clogs can be evasive and mysterious foes . Ooh, haha. The plunger squishes water down the pipe to help push away the trouble . Ha! There. I have made contact! Clog located .	Esto deshace las obstrucciones. No hay nada ahí. Los atascos pueden ser enemigos evasivos y misteriosos. Ooh, jaja. El destapador empuja el agua por la tubería para ayudar a quitar el problema. ¡Ja! Listo. ¡He hecho contacto! Atasco localizado.
The Man	Oh.	Oh.

Scene 8: The Explanation

Speaker	English Script	Spanish Translation
George	Ooh-ooh-ah-ah-ah!	¡Ooh-ooh-ah-ah-ah!

The Man	Where'd that come from?	¿De dónde salió eso?
George	Uh-huh.	Ajá.
The Man	If it went down the drain here, how did it get in the kitchen?	Si se fue por el desagüe aquí, ¿cómo llegó a la cocina?
Mr. Ogger	Now, based on the evidence , I would deduce young George drained the tub after a bath. Ah. The water current carried his toys down the drain , through the pipe , to the kitchen where the snake got tangled and stuck . Unable to pass the clog , water filled the pipe and came back up your drains .	Ahora, basándome en las pruebas, yo deduciría que el joven Jorge vació la tina después de un baño. Ah. La corriente de agua llevó sus juguetes por el desagüe, a través de la tubería, hasta la cocina, donde la manguera se enredó y se atoró. Al no poder pasar la obstrucción, el agua llenó la tubería y regresó por sus desagües.

Scene 9: Fix and Ending

Speaker	English Script	Spanish Translation
Mr. Ogger	Here's your problem: those aren't tub toys . Can't you buy the poor guy a boat? A nice rubber duck?	Aquí está su problema: esos no son juguetes para la tina. ¿No puede comprarle un barco al pobre amiguito? ¿Un lindo patito de goma?
English Narrator	Mr. Ogger reconnected the pipes . Then had one last thing to do.	El señor Ogger volvió a conectar las tuberías. Luego le quedaba una última cosa por hacer.
Mr. Ogger	Would you like to open the main and allow everyone to have water again? Ooh-ooh-ah-ah!	¿Te gustaría abrir la llave principal y permitir que todos tengan agua otra vez? ¡Ooh-ooh-ah-ah!
George	Uh-huh, uh-huh!	¡Ajá, ajá!
Mr. Ogger	No, open it. Lefty-loosey .	No, ábrela. Hacia la izquierda se afloja.
English Narrator	Ah. Ah. Oh. Hundley wasn't sure George should be taught things like this.	Ah. Ah. Oh. Hundley no estaba seguro de que se le debieran enseñar cosas así a Jorge.
The Man	George, would you like a boat, or a nice ducky ?	Jorge, ¿te gustaría un barco o un lindo patito?
George	Uh-huh!	¡Ajá!
The Man	I'll go first thing tomorrow . Ooh-ooh-ah-ah. So, um... you'll clean up so I can go buy toys now? Remember how to use the dishwasher ? First, scrape the food off ...	Iré a primera hora mañana. Ooh-ooh-ah-ah. Entonces, em... ¿tú vas a limpiar para que yo pueda ir a comprar juguetes ahora? ¿Recuerdas cómo usar el lavavajillas? Primero, quita los restos de comida...
George	Haha, ooh-ooh-ah-ah!	¡Jaja, ooh-ooh-ah-ah!

Part 3: Quick Teaching Notes

- **Drain:** Use it as a noun: The drain is clogged. Use it as a verb: George drained the tub. Meaning: water goes out.
- **Back up / came back up:** Use it when water cannot go down and returns upward. Example: Water came back up the drain.
- **Turn it back on:** Use it when something was off and starts working again. Example: Turn the water back on.
- **Be taught:** This means someone receives learning. Example: George should not be taught things like this.
